My experience with visiting Keegan Chiropractic has been an excellent experience each time I go. From the moment you are greeted by Linda, to each staff member who truly remembers you. Which is important to me. I never feel like a number. You can see they truly care and love the work they do. Dr. Keegan is an excellent practitioner, he treats your problem and he engages in meaningful conversations while doing his work. Offering suggestions to help improve your life. Even though I travel a ways to get to them, my time there is well worth the drive.

While at the practice in an exam room, I noticed a sign that said "This Business Loves FREEDOM. PublicSq." So following my first visit I looked up the meaning of this campaign and the company. One of the first search results was the CEO appearing in an interview being praised by Tony Perkins, the president of the anti-gay hate group Family Research Council which publishes debunked "research" related to sexual orientation and gender identity. I also learned more about Public Square, which promotes "family values" and "anti-wokeness." Certainly the right of the business to align themselves with this, just like it was my right to choose to not come back after seeing this and learning the meaning behind this sticker in the provider's exam room.

I had no intention of mentioning it until I was asked to provide this review. I wish the practice well and hope potential clients are aware of this alignment so they can make an informed decision as to whether they will feel welcome.

“I had an excellent experience at Keegan Chiropractic Clinic! The staff is incredibly professional, welcoming, and attentive to patient needs. Dr. Keegan takes the time to listen and provide personalized care, ensuring a comfortable and effective treatment. I noticed a significant improvement in my pain and mobility after just a few sessions. The clinic has a warm and inviting atmosphere, making every visit a pleasant one. Highly recommend for anyone looking for quality chiropractic care

I have tried multiple chiropractors throughout the NOVA area over the years and once I started going to Dr. Keegan I searched no more. He listens to your specific circumstances and looks for ways to address it and finds solutions. He did so well in fact for the better part of six years I hadn't had to return for an adjustment after going for a year. I returned recently after having some back issues from a snowboarding accident and had made multiple appointments with orthopedic surgeons. Dr. Keegan was away and I went to Dr. Desai. He was every bit as effective in dealing with my issues. He listened and tackled the root causes, I haven't felt more balanced and centered in over a year, it even seemed to help what I thought were non related issues like heart burn and acid reflux as well have reduced or gone away almost overnight. I had a dramatically effective experience. I would highly recommend going to Dr. Keegan's practice.

There's nothing better than to be greeted by a courteous and friendly reception making your pain slowly subside. Unlike other doctor's offices, the wait time was not long to relief you from pain. They keep the office and treatment beds clean. I have been coming to this office on and off since Dr. Keegan was a baby :) He is friendly, easy going and puts you at ease not to mention gets your body ready for the next yoga class. I am aware my body is always changing and stress can put a strain on our spines which is why I come to his office off and on for treatment. I always recommend him to anyone who asks about chiropractor! I am proud to see how he has progressed professionally and personally.

I wasn't sure how my 4yo would do at a new office, but the Doctor made him feel so comfortable that my son hopped on the table and did great! My 15 yo and I kept saying we felt so light after our adjustments. We didn't realize how bogged down we were till our body was put back into alignment. It really was the best visit due to the genuine kindness, skill and quality of our treatment! We look forward to our next appointment.

I recently had an outstanding experience at Keegan. To my surprise, I was able to walk in without an appointment, yet everyone welcomed me and my son with open arms. Jeet was not only skilled but also incredibly attentive to my needs. As always, I received an excellent adjustment that instantly alleviated the discomfort I had been experiencing from the holiday stress. . I am always impressed with the level of care and expertise demonstrated during Keegan. It's rare to find such a combination of

professionalism, skill, and accessibility. I've already planned to return in the new year on a recurring schedule, as I believe regular chiropractic care will be beneficial for my overall health and well-being. This clinic has certainly earned my trust and recommendation.

Overall the service for my back was perfect. The doctor and massage therapist were amazing. However upon leaving I was asked, as I was making my payment, a degrading/inappropriate question. The older white lady asked "what keeps you people from coming ". She immediately tried to clean up the statement but it ruined the experience. This occurred 12/28/23 around 6pm EST. This was my 1st visit and the question was a very bias and culturally offensive inquiry.

Dr Desai was very helpful. While I still have some issues they seem less this morning and I am looking forward to my next appointment (wish it could be sooner). In addition, Dr Desai gave me some "tasks" that I will strive to do on a routine basis. In addition, I noticed that the entire office and staff was very friendly, warm and welcoming. Most medical offices are less so. That's very comforting. Congratulations for that as I know it didn't develop without thought.

Been having a terrible time with my shoulder so thought I would give Keegan Chiropractic a shot and see if they might be able to help relieve the pain. They were able to get me in the same day, and quite remarkably my shoulder is feeling incredibly better, better than it has for several months now.

Office was very clean and fresh and relaxing the staff was absolutely amazing and they went above and beyond to help me especially Linda. The doctor informed me of so many things I never knew before that I've been to chiropractors before and never understood and he actually you know told me everything and showed me everything and did what he was supposed to do for now and usually I don't go back to the chiropractor this time I'm definitely going back to see them next week

Every visit feels like returning home! Doctor and staff are so kind and welcoming. They take the time to get to know their patients and truly treat them as family. Dr. Keegan is very knowledgeable, gentle and proficient in his treatment. He also offers the latest technology, including laser therapy. Terry, the massage therapist is the best I've ever experienced. Dr. Keegan and Terry together have made a world of difference improving my comfort and mobility.

I was referred to Dr. Keegan by a coworker, and I couldn't be more thankful. Everyone at his office was friendly and very accommodating. Dr. Keegan was absolutely great! He took time to listen, was very clear and detailed about my treatment and made me feel at ease. I've been to several chiropractors in the area and my experience with Dr. Keegan was miles apart from the rest. I would highly recommend him for anyone seeking a chiropractor.

By the second visit I was better with pain abetting at least 35-40 %. Now after 5 sessions I can get on & off the table without assistance! My movements are rapidly becoming better with little to no pain! THANK YOU DOC!!! I am an Octogenarian.

The words pain relief have taken on a new meaning! I have been an advocate for chiropractic health support for years. Having traveled the world for work, I had adjustments "far and wide". The best have been close to home - Dr.Keegan has years of experience with techniques that align and adjust to perfect health. Living pain free and having the mobility of a younger person are blessings. I am so grateful to have a quality of life during my retired chapters of life. Linda and her sweet front desk support staff welcome you as if you are part of the Family! Warm, engaging and caring. The process runs smoothly thanks to their organization! My experience at Dr. Keegans has been unique and distinct from all previous experiences with 3 other chiropractors. Dr. Keegan treatment is extremely comprehensive and includes techniques that I had not received previously. After years of backpain, I am already feeling subtle improvement that I expect to continue and and strengthen from further treatment. I think I have finally found the right doctor. He is also supported by a very helpful staff.

This is a very professional, but warm and friendly business. The office is very clean and very up to date. Dr. Keegan was busy but met me on time, and put up with my rambling stories in spite of the fact that he had other clients waiting in the office. He took the time and came up with a plan to get my back moving. I really respect that he did an X-ray prior to starting treatment. His office manager is amazing. If you live in Loudoun, VA and you are in need of a good chiropractor, you ought to be coming here. Cigna in-network for the win!

Listened to all my concerns, addressed them, and gave me exercises that will help me on my journey to a pain free lifestyle. I am truly looking forward to reaching my goals and with this Chiropractor, I have confidence that I will. I'm grateful that I found this place, because I have been to several other Chiropractors, but none like this. I left smiling, so encouraged, and feeling great!

I started seeing Dr. Keegan after dealing with years of lower back and neck pain from past injuries. He was extremely attentive and thorough during my initial consult so he was able to design the best treatment plan for me. I was able to get an appointment

quickly. Dr. Keegan is super kind as well as the sweet ladies up front - they are all so welcoming! I am always made to feel comfortable before, during and after treatment. After the first 2 weeks of multiple visits, I was feeling relief and seeing improvements with mobility. Now, after 2 months of weekly visits, I have experienced more physical relief than I've felt in 10-15 years. It's encouraging to know that someone is listening to me and focused on helping me feel better!

Dr. Keegan took his time to explain my condition/diagnosis. He was patient (with my limited understanding of medical terms) and detailed with his response. Every step along the way, Dr. Keegan explained what he was doing and why the process was necessary for my condition. I'm hopeful I'll be feeling better (neck/shoulder issue) in about a week! Linda at the front desk is just a ball of joy! As miserable as I felt when I walked in, she kept me smiling and optimistic.

Best chiro doctor and office, after trying about 4 "chain store" places and docs. Dr. Keegan is effective and efficient, and the treatments really work. I didn't expect much based on my past experiences with other chiropractors, but my wife urged me to go and try Dr. Keegan. First, he gave me a thorough examination and interview to understand my problem. During and after treatment, I was astonished that the pain was almost immediately eliminated and my joint moved easily. I continue to see Dr. Keegan as needed and to continue to improve my joints. I bought a gift certificate for my wife, so she recently went for the first time and is also very impressed and excited about what Dr. Keegan has been able to do for her.

I am beyond happy with the quality of service at Keegan Chiropractic. I had a minimally invasive microdiscectomy in 2014 and I am eternally grateful to my extraordinarily talented surgeon for immediately talking away the unbelievable pain in my legs caused by an injury to my back which forced a disc to press deeply into my spinal cord, but the pain was replaced by weakness in my left leg which often causes me to suddenly collapse onto the floor. Dr. Keegan, in his high tech, large, immaculately clean clinic, has worked out a treatment program for me that already has my back and legs feeling much better. I can even climb a flight of stairs now without feeling like I am going to tumble down. Immediately upon meeting Dr. Keegan you can sense that he is a true gentleman, a professional, and that he is going to make your back ailments go away. I trust him completely and when I leave his office I feel youthful again, strong and energetic. I would recommend him to anyone seeking relief from pain. And his office staff is top notch. Friendly, welcoming, discreet, and professional. They handle the business part of the practice with superior competence and knowledge of the insurance intricacies, and they work out with you terms that are

more than manageable for your wallet. I am extremely pleased with the whole Keegan Chiropractic experience. I intend to come see him for as long as it takes to return to 100 percent.

Initial exam was very thorough. Dr. Keegan listened to my medical history, reviewed prior x-rays, took new x-rays, , performed electrical stimulation, trigger point

manipulation, back and neck chiropractic adjustments, and laser treatment for carpal tunnel. Dr. Keegan also explained his recommended actions for quick recovery and provided me with various exercises to try on my own. A Denneroll Cervical neck roll and side-sleeper pillow were also available for purchase. I was well overdue for treatment for neck and shoulder pain with multiple trigger points and Dr. Keegan was able to help me with those problem areas. Great experience thus far, but only my first appointment, so anticipate results will happen over time.

The sheets were thrown on the floor rather than taken out of the room. Just made me nervous!

I was in severe pain, unable to function. I knew I needed the help of a skilled professional whom uses current technology to aid in the healing process. I'm sooo glad I found Dr. Keegan. He was able to get me in that day. He did a very throughout assessment of my issue, including x-rays. He had me see his massage therapist Terry to ease my spasming muscles first. Terry is extremely knowledgeable and skillful. By far the most therapeutic massage I've ever received. After the muscles where more relaxed, Dr Keegan was able to adjust my spine and relieve my discomfort. To continue the healing process he used electric stimulation(TENS) and laser therapy. This comprehensive treatment got me out of pain and allowed me to function. Thank you both for working together to get me out of pain. I will continue to see Dr. Keegan and Terry to fully recover and indefinitely for maintenance. JM Smith

First rate chiropractic practice. Professional staff, the doctor spent the time necessary to diagnose and plan a rational treatment plan. After my first visit, I felt remarkably better. So many chiropractors are a bit shady. Not this group. I highly recommend.

Review for Shawn Keegan

Dr Keegan was very friendly and showed a genuine interest in what was bothering me. My appointment included an evaluation and X-ray, spinal adjustment, and both electrical and ultrasound massage. I left feeling great and didn't hesitate to schedule another visit. I haven't tried the massage services offered yet, but I plan to soon. I couldn't be happier with my experience with this office so far.

I felt like the doctor, Mr. Keegan was very professional, great with my children, and a well-seasoned chiropractor. I would recommend him to anyone who may be in need of a chiropractor. I very much desired to give this business 5 stars, but I couldn't because I had a bad experience with the office staff which are two women. They could have just been both having a bad day, on our first visit and I hope so, because first, I felt disrespected because I was in the back room waiting on my daughter to finish getting some electric-therapy with her having little pads on her back connected to a machine for 10 minutes, while I was playing and coloring with my two toddler boys. My two year old tapped a bell that was by the bed that we were using as a table to color on and I got him to stop and told him not to do it anymore, but one of the women still came in there and instead of asking me to please have him not ring the bell again, she loudly and irritatingly said ALRIIGHT, LET ME HAVE THE BELL, while taking it, like I was some child, who did not need to be addressed, personally about controlling the issue. Then, when, I was paying for my daughter's bill, the same woman actually asked me if I had a babysitter for my personal appointment in a few days. At first, I thought she was joking around about her or someone she knew babysitting for me on Friday evening, because she liked my children, since we had already been out in the waiting room and they were starting to play which made me assume she had a moment to see how cute they were when they played, but to my surprise, I realized how rude she was trying to be by acting like she was an old woman who hated being around children, didn't believe I was competent enough to know I needed to not bring my children with me if I have an appointment that is for myself and I don't have my husband with me to watch them. In a surmised voice, I replied, yes, I do have someone to watch my children, because my husband will have the day off that day. Directly after that, my children wanted to play in the waiting room for a moment, because they didn't get the chance to when we arrived, since they were ready for us to go back right away, and although we have lots of toys at home, there were so many toys, there that my children had never played with. After a few minutes, the younger woman in the office came into the waiting room and started trying to talk to my children and I, but she just seemed very rude, because she was pointing out how one of my sons was wearing snow boots and the other was wearing

flip flops and making physical reactions as if she didn't think it was the correct weather for either. Next, the same woman was talking to my daughter about how it was supposed to snow the next day and was my daughter glad because she would be out of school, but when my daughter replied that she didn't go to public school and that we homeschool, that woman rudely and negatively replied to her, saying, Well, it's like you are at school ALL the time, then. Isn't it? To which my daughter just looked at her and didn't know what to say, so I replied and said, Or it could be more like that she is at home all of the time and just sometimes, we do schoolwork, because my daughter and I don't think negatively about homeschooling and we want to teach others that may be ignorant about it, to think more positively about it, too, because I believe it has more pros than cons and some people don't know enough about it to understand how it can have pros or more pros than cons about it. The receptionist then seemed like she may have been irritated by my reply, although I spoke nicely/calmly and was just trying to defend my daughter's hurt feelings. Almost directly after, the older woman came into the waiting room and loudly said it's time to leave, now and did a shoo'ing motion with her hands like she was trying to get rid of animals in her yard. In a surprised voice, I said to her, Oh, okay, I didn't know you guys were closing already, but she replied, Oh, we aren't, but this is an office. Then, she quickly closed the door that lead to the back and went back to her office. I felt so disrespected as a client, because I am a grown adult, who's responsible, was acting calmly speaking in a calm, respectful way to these two women, and didn't think it would be a negative action to let my children play with the toys and stuff in the children's area of the waiting room for a few moments, before we left, since they begged me because of never playing with toys like those, before, AND not to mention that I was a paying client, who just paid for my daughter's Chiropractic services. I will make sure when my children are with me in the future, to come early, to let them play and them playing, while I'm waiting should give me a valid enough reason for them to be able to play in a waiting room containing children's items.

Review for Shawn Keegan

I had not been to Dr. Keegan's practice in far too long (over a year), and was suffering some significant lower back pain. I have chronic lower back pain from an injury suffered years ago. It's been 24 hours since my visit, and I can't begin to describe how much better I feel. Absolutely no lower back pain today. I'm amazed at how much better I feel after one visit. I'm now scheduling monthly maintenance appointments so I don't fall back into the chronic pain issue again.

We met Dr. Keegan yesterday when I took my 14 year old son in for treatment . My son is a baseball player/pitcher and has been experiencing elbow pain that we've come to find out is probably being caused by issues with his neck, shoulders and back. Chiropractic is one of the avenues we are using to help him heal. Dr. Keegan took the time to explain the different therapies he is using, what the purpose is and what he hopes it will accomplish, all with a great sense of humor. We will be back, thank you!

I liked the way Dr. Keegan took the time to explain all of the procedures and discussed what was in the xrays. I would have preferred to have heard from the receptionist what the estimated cost of the service was for the first visit. I'm concerned that my insurance won't cover much and I would like to know the amount of the bill before I receive it in the mail. I also would like to know what the cost is for follow-on visits too. A bit more information on this would be helpful and appreciated. Otherwise my first visit was very pleasant.

At the urging of a friend at my job, I decided to make an appointment with Keegan Chiropractic. That was the best decision I could have made! The office manager was able to get me in quickly. Dr. Keegan reviewed my Xrays, discussed them with me, and decided on a course of action. Some of these actions included manipulation and massage therapy and I made a hasty recovery. He and his friendly staff take the time to sincerely check each patient's progress during and after the appointment & make you feel like part of the team. When they found out that I was moving, they even tried to find a practice near where I lived who provided the same services they provide. Can't say enough good things.

Dr. Keegan was very nice and very thorough. He was a bit rushed at times as he is the only clinical provider in the practice. Equipment a bit old, but overhead can be painfully expensive. Sadly, after my second adjustment I found that approx 12 hours later I could barely move! Called, but being Christmas week there was NO ONE on call for emergencies. 4 days later, say a traveling Chiro who was standing in for Dr. Keegan. Interesting/strange experience. The pain is gone 1 week later. They have very nice fish!

This was my first visit to any chiropractor, so I was a bit apprehensive. I found the staff to be very warm and welcoming, and Doctor Keegan is very low key and easy to talk to. He's very thorough! The chiropractic experience was much different than I had envisioned. I really can't comment on its effectiveness just yet, as I've only had 1 visit and I'm still under his care. I can say this, though: my back DOES know that it has had some attention this morning!!

I have never felt better in my life! After years of going to physical therapy, pain management specialists, counseling, and other chiropractic providers--I am convinced. This practice offers nothing less than the best care out there. Thus, from the moment, you walk through the door until after your session has ended you are treated with the utmost dignity and respect, in an enviroment that is positive, clean, and professional. I'm so pleased that I switched to this doctor. In fact, if you are on the fence about the benefits of chiropractic care, please don't spend any more time going to places and practitioners who don't treat you as a whole person or make you happy with their services. Life is too short for that. Besides, you deserve to feel better and gain increased mobility from a team who can get the job done. Well done!.

After moving into this area from another state, I was skeptical about visiting another Chiropractor. My daughter recommended Dr. Keegan and he has been a true blessing. I have received excellent care and after many years of lower back pain, I am totally free of constant back pain. I have and will continue to recommend Dr. Keegan to others in the Northern Virginia area.

Dr. Keegan is a fantastic chiropractor and physician! I travel all over the world, and out of literally hundreds of chiropractors in hundreds of cities, he's in the top three, if not the best of them all. He's very skilled at adjusting and his advice for long term care is spot on. Given how much time I spend carrying bags, sitting in economy, and sleeping in hotel beds, I'm very fortunate to have stumbled upon Dr. Keegan's practice.

I recently experienced a pinched sciatic nerve and Shawn and Terry worked on me to help relieve the pain and increase my mobility. Without the use of any drugs, they were able to lessen the pain until it became necessary to visit the emergency room for medications to better address the issue. I truly appreciate their efforts and the careful attention to detail both Shawn and Terry employed. Thanks, gentlemen.

Terry has been helping me with an old shoulder injury for about 6 months. When my shoulder starts giving me problem he's the first person I contact. His ability to pin point the exact area that is creating pain or lack of R.O.M is amazing. Keep up the good work Terry and Thanks.

I get severe migraines, tightened jaw muscles/knots, a stiff neck and locked up shoulders from TMJ/Grinding my teeth. I go to Keegan Chiropractic once a week or once every 2 weeks to reduce the tension in my muscles which keeps the pain in check. Thanks to Dr. Keegan I can avoid the migraines and focus on my life! What a relief!
